The Dental Dialogue: Mastering Newsletter Content

Mastering Newsletter Content Workshop

Tufts ASDA Fever *Month* 2024

Foreign Trained Dentists Fireside Chat

Want to learn more about the highly diverse students at our school? This fireside chat was a way to learn about the unique backgrounds and experiences of our international classmates.

Pickleball Tournament

From participants to observers, the Pickleball Tournament was an evening filled with food, fun, and friendly competition!

ASDA Run Club

The Run Club event had students lacing up their sneakers for an early morning jog around the Charles River, soaking in the fresh air and beautiful sunrise.

Afterward, participants enjoyed delicious treats, making it a rewarding experience and a great opportunity to hang out and bond as a community!

Mastering Newsletter Content Workshop

Our "Mastering Newsletter Content" workshop helped students find their voice and leave a lasting impression in dental journalism. Through essential journalism techniques, they learned how to elevate their writing from informative to impactful, unleashing their creativity to make a mark on the profession.

Brushstrokes and Bristles

A fun and unique painting event, where students tapped into their creative side by painting with toothbrushes! It was a chance for students to learn about our Pre-Dental Mentorship program and how they can become involved as mentors.

ASDA Headshots

As the incoming class settled in, our Social Media Committee organized a professional headshot event to help first-year dental students mark the beginning of their journey. It provided them with polished headshots they can use for their resume, networking, and professional profiles as they start their careers in dentistry.

Sustainable Sprouts

We invited participants to bring recycled egg cartons, cups, or other containers to create new plant pots. Attendees can choose to propagate a plant, paint it, and give it a new home

Ice Pops & Ice Breakers

With the sweltering Boston summer heat, this event allowed for attendees to enjoy cool treats while engaging in a DEI jeopardy board, sparking interesting conversation with others from diverse backgrounds.

Scrubs for Smiles

Scrubs for Smiles is an event aimed at recycling scrubs by passing them down to underclassmen for their anatomy lab. This initiative promotes sustainability while helping younger students prepare for their lab work with gently used scrubs!

All About ASDA: Meet the Reps

Heard about ASDA but don't know what it is? This event was perfect to introduce the first-years to ASDA and our mission. Attendees had the chance to engage with reps and ask questions about how they can get involved.

Vision Board Workshop

With scissors, glue, and a sprinkle of inspiration, our students created vibrant boards filled with images and words that inspire them, helping to clarify their vision for the year ahead and set a path toward achieving their ambitions.

GBS Blood Drive

Students, faculty, and staff joined forces to donate blood, creating a strong sense of community and offering vital support to those in need. It was an evening filled with a spirit of generosity and gratitude.

ASDA Welcome Night

ASDA Welcome Night is a lively event designed to kick off the year by welcoming first-year students with an evening full of fun, socializing, and great memories!

Smile Showdown: The Ultimate Dental Game Night

The Smile Showdown was a lively game show event that brought pre-dental and dental students together for some friendly competition in dental trivia. The night was filled with Kahoot games, exciting prizes, and plenty of laughter!
